

Technical Data Sheet

Rescue Trade Bed-Set

Basic UDI-DI: 426072773RT-BEDSET7J

Rescue Trade Disposable Blanket – 340 g

Item: RTEDPP340

Description and Application

The disposable patient blanket is intended for short-term single use in healthcare facilities, such as hospitals, ambulances, patient transport and nursing homes, and home care, and provides a physical barrier against the direct transmission of potentially infectious germs to the patient. It also increases comfort and well-being during the patient's stay or during transport.
